Subject:	Common Good Missoula Housing Trust Fund
Date:	Tuesday, July 14, 2020 12:37:33 AM

Dear City Council,

I am a citizen who has been actively involved in learning about housing in Missoula and in solidarity with Common Good Missoula I am writing to ask you to incorporate our consensus requests into the Housing Trust Fund resolution: Establish Housing Trust Fund to be included in 2021 budget Establish oversight committee with decision making power including good citizen representation: BIPOC representation and 50% representation by cost burdened renters including people with disabilities, history of incarceration, vouchers, labor representation and eventually renters living in HTF housing. Housing as a human right Commit to an anti-racism frame for HTF, committee, and funding Ensure broad parameters that don’t exclude any funding mechanisms. Commitment to move toward more funding from City in the future

This is important to me because I like the funkiness of this town and don't want it to dissolves because only boring rich people can afford to live here. I work hard and deserve housing stability just like any other so please take single income people into consideration when building homes.
Sincerely,
Kari Neal
