Missoula Health Dept & City Council,

The environment you have created in Missoula is disgraceful, causing many businesses to close and likely never re-open. You are part of the elitists, politicians and city leaders who think you can just decree and the people will obey your mindless "orders". Your "mandate" makes no sense at all and continues the madness of people being terrified of a 99% survival rate virus. When the virus was at its highest point in the spring...no masks...dead heat of the summer...masks are required?? The people are waking up to your BS and realize there are common sense limitations to your power that you hold so dearly. The way you are treating this virus that has a death ratio of less than 0.00001% of the Montana population is ridiculous. Locking healthy people inside and forcing masks is what tyrants and dictators do. You do not shut down our economy for this low of an infection/death rate, clearly this is a scam perpetuated onto the people you claim to care about. Why don't we do the same thing for the flu season every year!?! This COVID nonsense is all about you keeping control and power over the population. The worst flu season, 2017-2018, there were over 48 million illnesses, 22 million medical visits, 950,000 hospitalizations and 79,000 deaths. There were no masks, social distancing, shutting down of every business, destroying the economy. Do those deaths not matter?? Where was the concern then?? You are complicit in this nonsense, people's livelihoods destroyed due to the destruction that you imposed, and you will NEVER ADMIT YOU WERE WRONG. You will continue with the scam to pretend that you are right. Healthy people should not be forced to wear masks by the government. What happened to choice? Don't we have the choice as American citizens? The CDC originally stated that masks will not prevent people from getting a virus of any kind, but simply to help people "feel better". This will never be the new normal, we do not comply! You do not care about us, the country or our future but simply the power you can impose over your taxpayers. How long are we going to have to continue with this nonsense? Until when you feel is right?? What happened to flatten the curve? I realize that you have 0 incentive to tell the truth. You have drastically underestimated the people, you just assume we are all stupid and will fall in like like sheep. You have divided us into groups, pitting us against each other. It is divide and conquer to the point where people have sought the government and surrendered their liberties for temporary safety.
Missould deserves better leadership!! You are all frauds.

Sincerely,

Fedup Missoula Resident & Taxpayer
