Dear Missoula City Council members,
As many of you know there was an event on that day that shall live with infamy, 2020-22005. Now my question is: Is it too late to do anything? As far as I know, the criminal party hasn't been punished for either that event(at least 10 different people) or the one 3 days later(to which I didn't witness, and I don't think was witnessed by a large number of people)(Unknown).
To the Health of the Company,
CAS
