Subject: . City of Great Falls is in Violation of federal Law
Date: Wednesday, April 27, 2022 5:04:12 AM

Cascade country and the city of Great Falls are currently in partnership with City of Great Falls Transit to provide Cascade county Aging services, in compliance with federal disability laws. Cascade county aging services is operating in Great Falls city limits, providing aging services transportation to disabled residents 60 years old and older.

The state sighted this ordinance from the city when asked why they were refusing to acknowledge state marijuana laws within the city, “No use of land shall be permitted by right or conditionally permitted within the city of Great Falls that is in violation of federal, state, or local law.”

They are saying that, because marijuana is in violation of federal law, they will not uphold access within the city. Because that would be violating federal law that says, marijuana is 100% illegal, class one narcotic. No medical use. So, they are not required by law to provide the access the people voted on. Because the vote was against the law. Another vote will not change federal law. The federal law was the federal law before the last vote too. Our vote didn't change it.

However, the city is not only providing access to marijuana, in violation of federal law, they are profiting off it. And operating a building within the city despite their own ordinance. They are allowed to collect money 2 dollars per trip, 4 dollars round trip, to provide disabled and senior citizen access to marijuana outside the city limits.
They are in violation of federal law now.
18 U.S. Code § 2 - Principals
(a)
“Whoever commits an offense against the United States or aids, abets, counsels, commands, induces or procures its commission, is punishable as a principal.
(b)
Whoever willfully causes an act to be done which if directly performed by him or another would be an offense against the United States, is punishable as a principal.”

The city is aiding and abiding in the transportation of people for the expressed use of access to a federally prohibited narcotic. The city and county collects money on this crime and operates a building within city limits. I'm sure they get both city and federal money to operate, by talking people to buy marijuana in violation of federal law.

The great falls is not currently in accordance with federal marijuana laws, state marijuana

laws, and its own ordinance. The city and county facilitate the access to marijuana, takes money, and has an office within the city limits. They employ people with the money they gained in violation of the federal law that they are not enforcing. First federal, and now state. The office is at 1801 Benefis Court Great Falls, MT 59405 according to the internet. Their city ordinance is meaningless to them. They are operating in violation of it right now.

The city is not only profiting based on federal funding of their monopoly of city-controlled access to marijuana, they are denying the people access in town, based on federal law. Denying access to the vote that guaranteed their rights to access within city limits, so the city couldn't profit off of them. They are denying our rights, justifying federal money be spent on a building in city limits, that operates in violation of federal law, to justify the need for the building and expense.

Do you think the jury will uphold city ordinance if I sell weed in town, knowing the city is profiting in violation of federal law, state law, and the city ordinance they themselves do not enforce or live to? Shall I find out?

If they are not going to comply with federal law, they can't deny our states right, upheld by our vote and the law, by upholding up the federal law they are not complying with.

The law is either made for all of us or none of us. We can't pick and choose which parts of laws we will enforce.

I'm sure, collecting money from half a dozen federal agencies to uphold illegal activity should be reported to the OIGs of those federal agencies. Especially if they don't need to be, if you upheld state law.

You need to tell the Great Falls city commissioners not to cost the states federal funding because they lost an election and are pussies about it. And tell Bob, he shouldn’t have called my vote fraudulent.

Thanks,
Ben
