Subject: Pdx cops using "Big Chokie" Thermal Fogger - Thermal Fogging Machine SM600
Date: Friday, January 22, 2021 3:54:14 PM

Hi all,

Just trying to keep you ahead of the ball.. all the other "progressive" cities are getting these:

The Feds in Portland are using WhiteFog Thermal Fogging Machines to fill high density, residential neighborhoods with toxic gas. What would the WHO think of this use of their product?

You bought them video games, you bought them helmet and $20k in ammo in the last 2-3 months (that could be being sold on the open market as we speak because of lack of oversight from yourselves or the police

admin).

So when you clowns gonna buy them a thermal fogger?

You know for all the peaceful protests (now that griz seasons is canceled) ?

Link for your 2021 budget ♂:
