---

City Council,

I am dismayed to learn about the proposal for Giadi Place Apartments at 1841 South 7th St W.

The proposal would place twelve apartment units a few feet from our bedroom windows. This is not acceptable nor is it compatible with a comfortable living environment.

The proposed new buildings do not create a positive relationship with the existing or future environment, be that urban or natural. Giada does not fit the character of the neighborhood and will cause great harm to the property owners in our little community.

The proposed design is not overall attractive or functional. This street does not have the necessary parking for 12 new families. Bottlenecking traffic into our alleyway will be disruptive, loud, and inconvenient for all.

Please help us halt these aggressive developments. The heart and soul of Missoula is at stake.

Best regards,

Andy Smith
