Subject: Road Maintenance
Date: Thursday, January 6, 2022 12:18:59 PM

I drive all day long and have not seen one snow plow. Reserve and russell have not been touched. Think with all of the ridiculous taxes we pay we could have our roads maintained. Hire outside organizations if you cant keep up. We shut the city down for covid well this is much more dangerous. Maybe we pay less to homeless and “affordable” housing and actually provide the city with a nice place to live for the tax paying citizens. You go to florence or past frenchtown and they are plowed continuously. Maybe we could take a lesson from them??? This is complete bullshit that even the roads to the schools aren't even plowed for busses. Lets get someone with leadership to actually address this problem and countless others. This happens yearly so it should be no surprise to anyone. Get your act together and do something that makes sense for once. This is pathetic.
