Subject: Entheogenic Plants Resolution
Date: Tuesday, June 14, 2022 10:56:13 AM

I strongly support the decriminalization of the possession of entheogenic plants as they have been shown to be useful in the treatment of ptsd, addiction and end of life care.

The resolution comes before City Council on June 15.

I'm unable to attend the meeting but will certainly follow up and monitor the votes.

Thank you.

Carol Wald
