**Summary Description and rationale of project and funding sources:**

The Missoula City Cemetery strategic plan indicates the need for a new office building. In order to start the process of building a new facility, an architectural design and engineering plan is required. This will allow for better functionality and a safer environment.

**History & Current Status: Impact if Cancelled or Delayed**

The current office building is aging and in need of serious repair. The strategic plan states that the building will need to be replaced over time. Delaying this process could result in larger repair bills, and more serious work needing to be done in the future.

**Are there any site requirements/ Potentially Affected Interest (PAI) Coordination:**

None.
