Subject: Reconfiguration of the bridge

Leave things as they are as so many people have refused to go downtown because of all the disruption. I have heard many people say "I wouldn't go downtown for anything. It is always disaster." Give downtown a chance to recover. I had a store downtown at one time and so many people would say "I'd stop if I could find a place to park". Cathy Correll

Subject: Partnerships, Commissions, Authorities "the unraveling of Democracy"

There is zero "equity" in using TIF funding. Especially the way the City has used it, and the using of Covid funds to do what they wanted to do, because nobody seems to care that monies and purpose don't matter, as long as they get what THEY ALWAYS were planning to get, any way the government gave them the opportunity to get free money, so the players and investors don't have to spend their own and as a result make, their captive and lied to residents, responsible for their government, self, as well as their Lawyers, "endowments", as I view them. Whether it's TIF money for "Blighted" new Stadiums, or acquiring a bunch of pipes saying they're buying the water for the residents, or the City Condemning the water Company (see Perkins Coie), and, to top it off, having the City pay for favored (in location, or otherwise, businesses store fronts. And let's not forget taking Federal Dollars and lying about Mountain Line Ridership, with the media ignoring the numbers and the costs.

These same concerns could be said about anticipated passenger rail use, now proposed costly studies, actual costs and potential benefits.

Remember the Millions in "studies" to fix malfunction junction decades ago?.

Economic Partnerships and so call Metropolitan "commissions", Planning Authorities, etc.. are a way to get unelected people, to over take and or replace Elected Officials "Duties and responsibilities" through imaginary "delegation", allowing incompetent, uninformed, impractical, and inexperienced or corrupted Council People to pretend to "represent", and say that they are in charge, but more often than not they choose not to be, but have plenty of personal, though often meaningless, or minor "projects" or worse their own grand pet money eating projects paid by residents or other Governments, while enhancing and keeping Residents eyes off of the true decision makers, and real resident affecting projects decisions, and as I said before, motives, and "should be known self beneficiaries".

Though this attachment is not directly related it does include "players".
