Subject: The magic chokehold
Date: Monday, September 25, 2023 11:17:35 AM

Hello,

I just got off the phone a few minutes ago with Cyril Wecht. If you're not familiar with the name, you can Google him.

This famous medical examiner doesn't need to see autopsy pictures to know a chokehold can't produce bruising on other parts of the body. In fact, I bet my 7 year old daughter would come to the same conclusion.

So what does that say about our Detectives, Lang and Franke? And what does that say about our Sheriff/Coroner? And what does that say about YOU if you let this charade continue?

I'm warning EVERYONE I talk to while traveling to stay away from Montana because law and order is gone, the criminal justice system is a joke, and the bodies just keep piling up.

Jim, if the Journal doesn't want to rip this town wide open to see the rot inside, I'm sure another media entity will want to, one of these days.

Have a nice week!

-Travis

Subject: Vote NO on real estate development at Ft Missoula
Date: Monday, September 25, 2023 12:56:48 PM

Dear Council members,

I urge you to vote NO on the proposed rezone of Ft Missoula to demolish one historic structure, claim to rehabilitate the Old Post Hospital and build residential and commercial building along the Bitterroot River. Fort Missoula is recognized as an International Site of Conscience and a gem of Missoula. This is not the place to allow for profit real estate development that would radically alter the historic landscape and remove open space. This unique area should be preserved for future generations. It would be a great dis-service to our community to allow a private real estate developer to go forward with this proposal against the Historic Preservation Commission's opposition. Please vote against this!
