**Summary Description and rationale of project and funding sources:**

Project provides for replacing existing park and increasing overall park size. A suitable property has been identified and discussion are in progress with owner. MRA is working on project to extend Palmer Street in 2023 through the existing park for planned improvements for a future multifamily project and for housing new public works facilities. The "new" park's size, features and capacity will be planned per the Urban Renewal District and transportation plans. Park land acquisition, amenity needs, and desire to provide quality green space to support nearby housing means timing for funding this project could affect delivery of park services.
